

# Chillmech

Services Pty Ltd

## Environmental Policy

### Environmental Commitment

Understanding the affects that refrigeration practices and substances used in the industry have on the environment, Chillmech Services (Australia) Pty. Ltd. is committed to minimising its ecological footprint on the environment.

### Environmental Objectives

To assess the implications of our work practices in our offices, vehicles, and plant that impact the environment.

Develop strategies to reduce the risk of pollution and minimise the impact on the environment.

Ensure environmental considerations form part of our business planning and purchasing decisions (i.e. Subcontractors, equipment, consumables, etc.).

Develop a process of continual review and improvement.

Implement management plans to minimise waste-to-landfill, noise pollution, chemical spillage, and greenhouse gas emissions/leakage.

Promote and encourage a culture of recycling.

Pursue best practices for prevention of pollution in all areas of Chillmech Services operations.
